

# FOR SHIPBUILDING AND INDUSTRY

## STEELSHIM

Solid, stainless steel shims

- Solid stainless steel
- No waste of time by cutting your own shims
- Thicknesses are marked
- Recyclable
- Safe to use

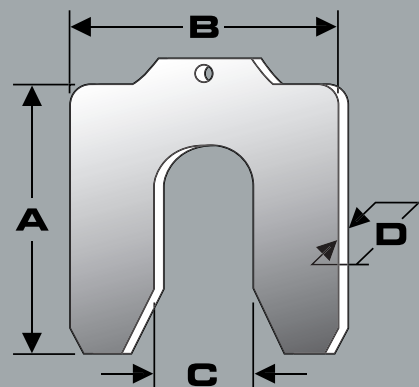

[www.machinesupport.com](http://www.machinesupport.com)

The solid, stainless steel Steelshim shims are invaluable when aligning machinery. Cutting your own shims is time consuming and carries a risk of injury. They come in a range of sizes and thicknesses and, for convenience, are packed in a handy suitcase. They are thus readily available for the next alignment job.

Steelshim types with thickness 0.05, 0.10 and 0.20 mm are produced of AISI 301 (1.4310). The other types are produced of AISI 304 (1.4301). All shims are supplied in packages of each 20 pieces.

	A	B	C	D		A	B	C	D

**STEELSHIM  
SHIMS ARE  
PERFECT  
COMPLEMENTARY  
TO LASER  
ALIGNMENT  
SYSTEMS**

**STEELSHIM** can also be delivered in a handy suitcase, containing a complete insert for storing your shims.

<b>StS ABCD</b>	Contains 640 shims with thicknesses from 0.05 till 2.0 mm of the A-B-C-D types.
<b>StS AB</b>	Contains 320 shims with thicknesses from 0.05 till 2.0 mm of the A-B types.
<b>StS BC</b>	Contains 320 shims with thicknesses from 0.05 till 2.0 mm of the B-C types.
<b>StS CD</b>	Contains 320 shims with thicknesses from 0.05 till 2.0 mm of the C-D types.
<b>StS CASE</b>	Contains only a complete insert for storing your shims.
